IMAX Corporation (NYSE: IMAX) today reported first-quarter 2018 revenues of \$85.0 million, gross profit of \$50.7 million and net income attributable to common shareholders of \$8.5 million, which calculates to \$0.13 per diluted share. Adjusted net income attributable to common shareholders for the first quarter was \$13.4 million, which calculates to \$0.21 per diluted share. Adjusted EBITDA per Credit Facility was \$31.4 million. For reconciliations of reported results to non-GAAP financial results, and for the definition and reconciliation of Adjusted EBITDA per Credit Facility, please see the end of this press release.

"Our first quarter results were strong from both a financial and strategic standpoint. We modified our programming strategy, demonstrated operating leverage and set the table for the successful launch of IMAX with Laser, which was bolstered by over 150 signings to date," said Richard L. Gelfond, IMAX CEO. "In addition to benefitting from the revenue and cost initiatives we implemented last year—which helped drive Adjusted EBITDA growth of 70%, compared to Q1 last year—our recent performance also reflects IMAX's growing value proposition to content-creators and moviegoers alike. As content-creators emphasize blockbuster-type content and as consumers seek differentiated moviegoing experiences, The IMAX Experience® is becoming an increasingly important platform to launch and experience global franchise content." Gelfond concluded, "We believe our global footprint, coupled with our focus on creating differentiated experiences for the biggest cinematic releases, uniquely positions IMAX to benefit from these trends."

Gross box office from IMAX DMR® films increased 16.4% to \$246.9 million in the first quarter of 2018 from \$212.1 million in the first quarter of 2017. Gross box office was generated primarily by the exhibition of 22 films (14 new and 8 carryovers), as compared to 18 films (12 new and 6 carryovers) exhibited in the first quarter of 2017.

First-Quarter Consolidated Results

The gross margin across all segments in the first quarter of 2018 was \$50.7 million, or 59.6% of total revenues, compared to \$35.8 million, or 52.1% of total revenues, in the first quarter of 2017. Operating expenses (which includes SG&A, excluding stock-based compensation, plus R&D) were \$27.3 million in the quarter, down 9% compared to \$30.0 million in the first quarter of 2017.

"Looking ahead, our objectives this year are focused on improving the earnings power of our core business, increasing the differentiation of The IMAX Experience relative to other moviegoing options, and reinforcing the strength of our brand amongst worldwide consumers." Gelfond continued, "We believe these initiatives, coupled with our continued signings and installation momentum, should create meaningful value across the IMAX ecosystem. Moreover, we're encouraged by the exciting upcoming film slate, the successful launch of IMAX with Laser and our continued focus on controlling costs."

OTHER INFORMATION
(in thousands of U.S. dollars)

Non-GAAP Financial Measures:

In this release, the Company presents adjusted net income, adjusted net income per diluted share, adjusted net income attributable to common shareholders and adjusted net income attributable to common shareholders per diluted share, EBITDA and adjusted EBITDA as supplemental measures of performance of the Company, which are not recognized under U.S. GAAP. The Company presents adjusted net income and adjusted net income per diluted share because it believes that they are important supplemental measures of its comparable controllable operating performance and it wants to ensure that its investors fully understand the impact of its stock-based compensation (net of any related tax impact) on net income. In addition, the Company presents adjusted net income attributable to common shareholders and adjusted net income attributable to common shareholders per diluted share because it believes that they are important supplemental measures of its comparable financial results and could potentially distort the analysis of trends in business performance and it wants to ensure that its investors fully understand the impact of net income attributable to non-controlling interests and its stock-based compensation (net of any related tax impact) in determining net income attributable to common shareholders. Management uses these measures to review operating performance on a comparable basis from period to period. However, these non-GAAP measures may not be comparable to similarly titled amounts reported by other companies. Adjusted net income, adjusted net income per diluted share, adjusted net income attributable to common shareholders and adjusted net income attributable to common shareholders per diluted share should be considered in addition to, and not as a substitute for, net income and net income attributable to common shareholders and other measures of financial performance reported in accordance with U.S. GAAP.

The Company is required to maintain a minimum level of "EBITDA", as such term is defined in the Company's credit agreement (and which is referred to herein as "Adjusted EBITDA", as the credit agreement includes additional adjustments beyond interest, taxes, depreciation and amortization). EBITDA and Adjusted EBITDA (each as defined below) should not be construed as substitutes for net income or as better measures of liquidity as determined in accordance with U.S. GAAP. The Company believes that EBITDA and Adjusted EBITDA are relevant and useful information widely used by analysts, investors and other interested parties in the Company's industry.

Adjusted EBITDA per Credit Facility of \$31.4 million and \$151.1 million for the three and twelve months ended March 31, 2018 respectively, include the impact of the Company's investment in "Marvel's Inhumans", which resulted in a \$0.1 million and \$13.0 million loss, respectively. However, as permitted by the Credit Facility, this loss was offset by addbacks of \$nil and \$13.3 million for amortization and by addbacks of, \$nil and \$11.7 million for impairment charges relating to the investment, in each case for the three and twelve months ended March 31, 2018, respectively. The net effect of these addbacks was to increase Adjusted EBITDA per Credit Facility by \$0.1 million and \$12.0 million for the three and twelve months ended March 31, 2018, respectively. This investment represents the Company's first foray into a commercial television property, and therefore the Adjusted EBITDA per Credit Facility metric presented above may not be reflective of the Company's typical operational activity. Further, the Company does not yet know whether it will make similar investments in the future. As a result, the Company is also presenting Adjusted EBITDA per Credit Facility excluding the impact of "Marvel's Inhumans" to better facilitate comparisons to prior and future periods.

Free Cash Flow:

Free cash flow is defined as cash provided by operating activities minus cash used in investing activities (from the consolidated statements of cash flows). Cash provided by operating activities consist of net income, plus depreciation and amortization, plus the change in deferred income taxes, plus other non-cash items, plus changes in working capital, less investment in film assets, plus other changes in operating assets and liabilities. Cash used in investing activities includes capital expenditures, acquisitions and other cash used in investing activities. Management views free cash flow, a non-GAAP measure, as a measure of the Company's after-tax cash flow available to reduce debt, add to cash balances, and fund other financing activities. Free cash flow does not represent residual cash flow available for discretionary expenditures. A reconciliation of cash provided by operating activities to free cash flow is presented in the table below:

<i>(In thousands of U.S. Dollars)</i>	For the Three months ended March 31, 2018	
Net cash provided by operating activities	\$	15,463
